Do not use preferred seating option.

The screenshot shows a top-down view of a poker table with a red felt surface and the Ignition Casino logo. Above the table are four numbered buttons: 9, 6, 3, and 2. The button for position 6 is highlighted with a red circle. The interface includes a navigation bar at the top with tabs for 'Table Settings', 'Game Play Settings', 'Default Buy-in', and 'About This Software'. Below the navigation bar, the 'Seating' option is selected under 'Game Play Settings'. A checkbox labeled 'Do not use preferred seating option.' is present and unchecked.

Download and run "Ignition_resizer.exe" file, located in this FTP folder. Feel free to rename it.

If you are using Windows 10, and experience problems with connecting to Ignition table, try to run your Ignition client with "Windows 8 Compatibility mode". It fixes a common issue. This is a more detailed guide on using Compatibility mode: <https://support.microsoft.com/en-us/help/15078/windows-make-older-programs-compatible>

It is recommended to enable Autostarter in bot Preferences (for better handling of tournament pop-ups)

Windows8/ 10 is recommended.
