

## Settings for Microgaming casinos

(<http://poker-bot.org>)

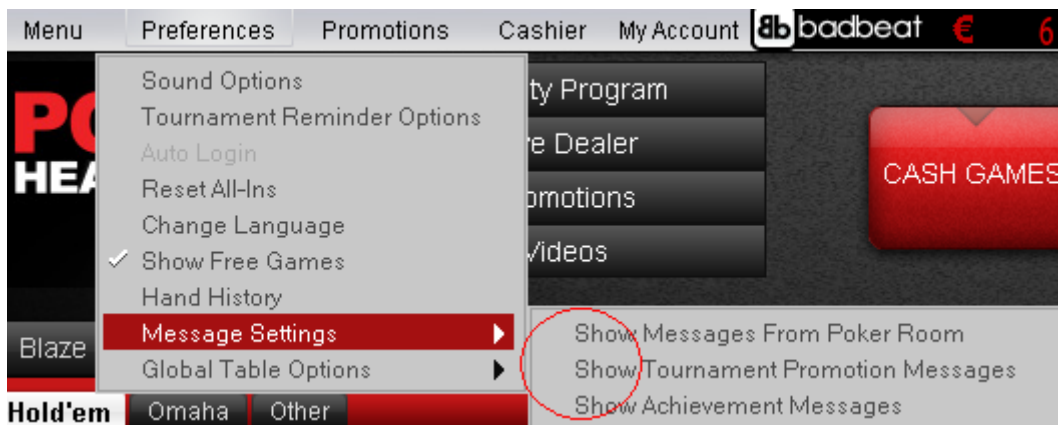

Download and install old poker client! Usually MPN sites have option like this:

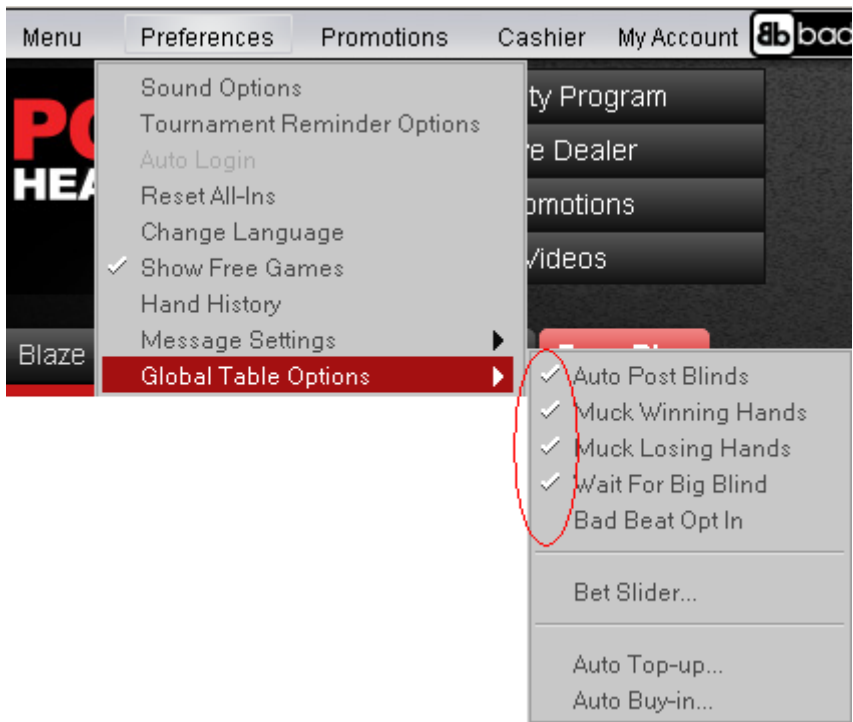

## Get old client

### Download for Windows

Install your poker client in **English** language!

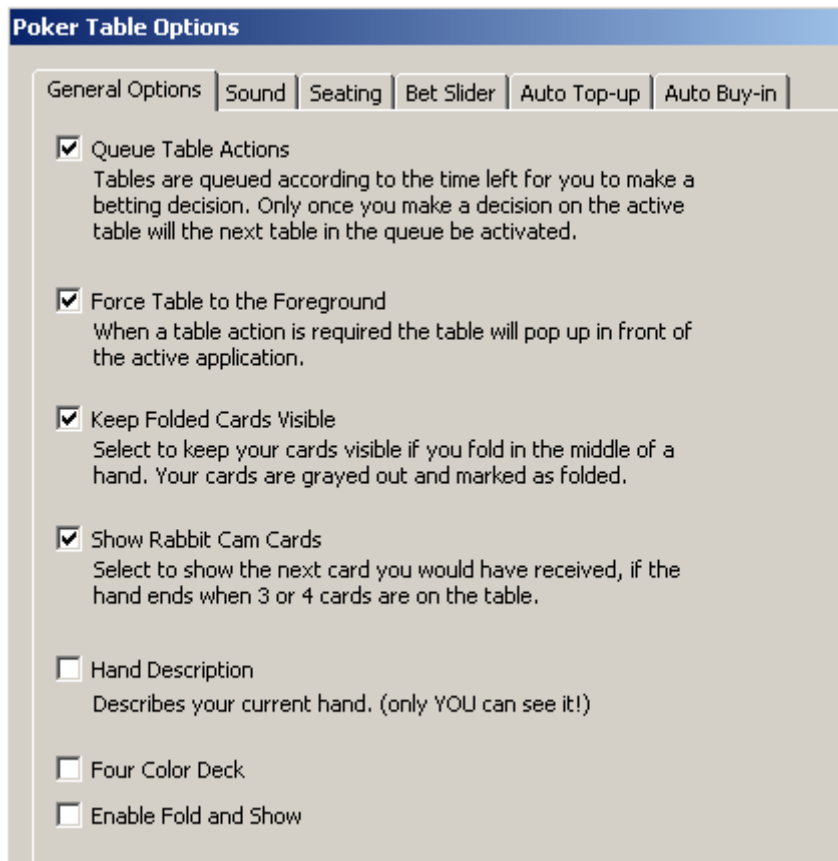

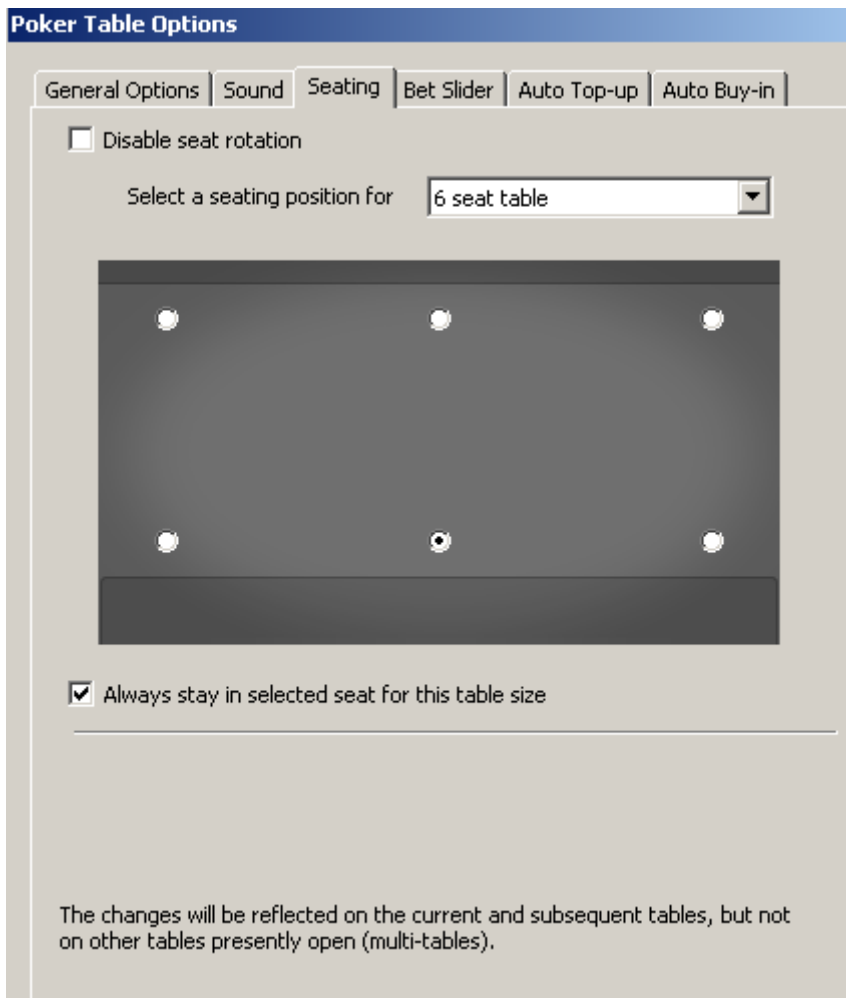

Open any table, click Menu, and select Mini View. Then click Menu again and select “Use as default view”.

After this, your tables should look like this:

Click Menu – Options:

When joining tables, make sure that "Autopost" and "Wait for BB" are checked (with right settings it should be always checked)
