

PokerMatch

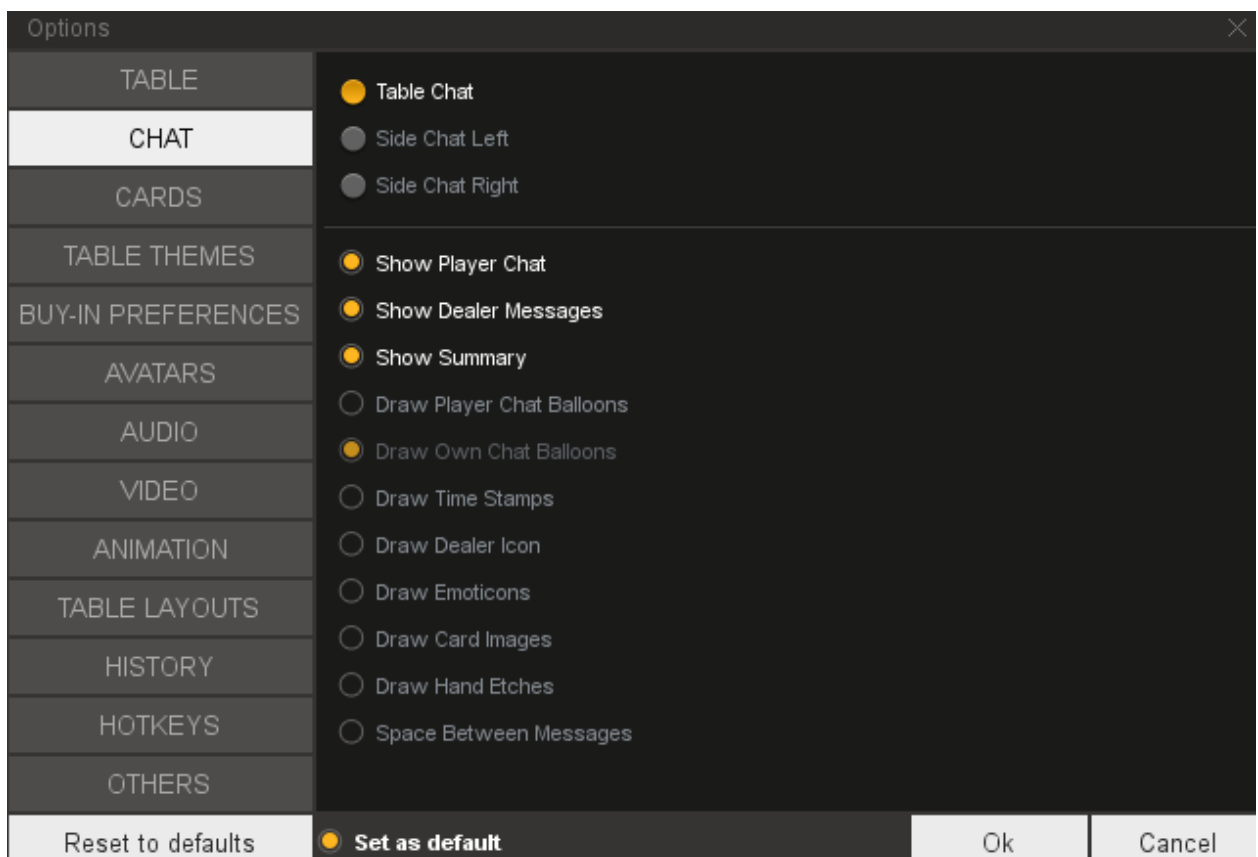

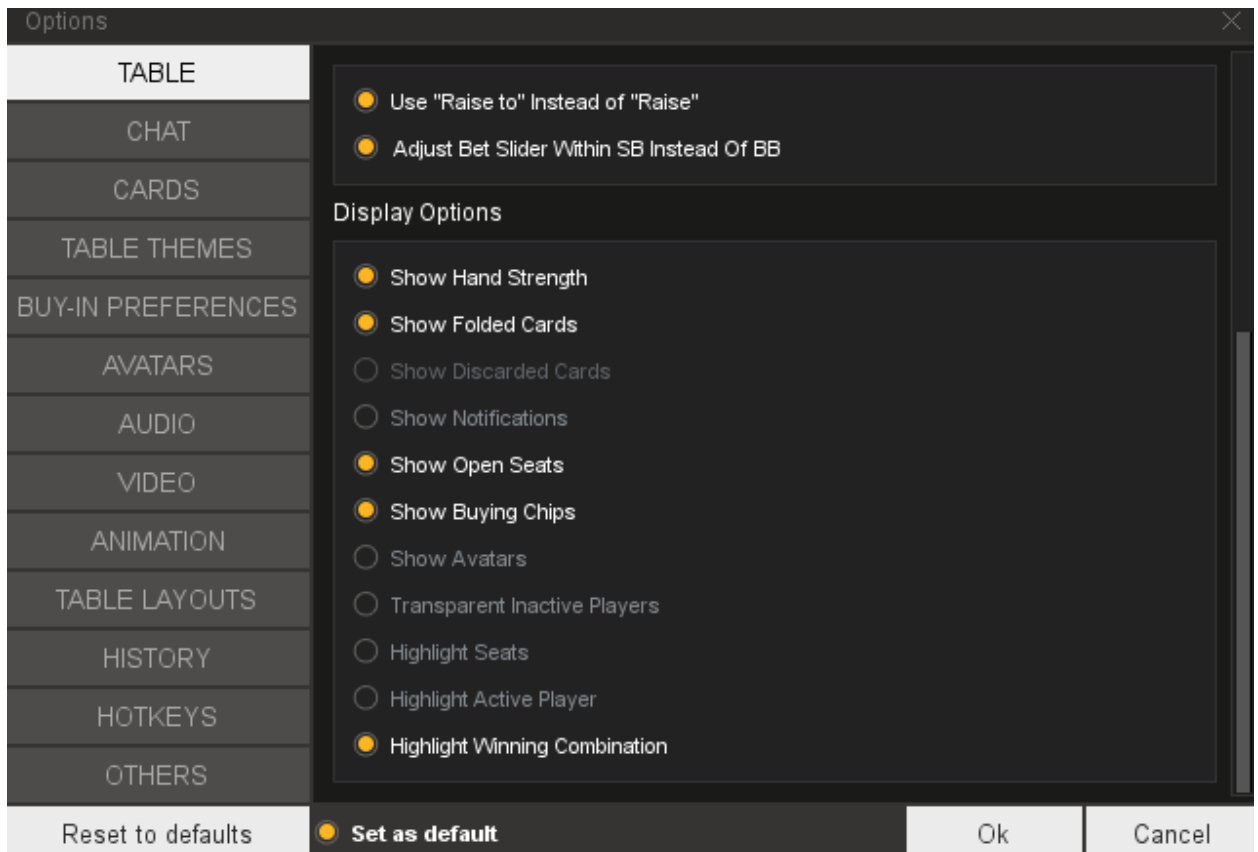

Settings for Warbot (www.warbotpoker.com)

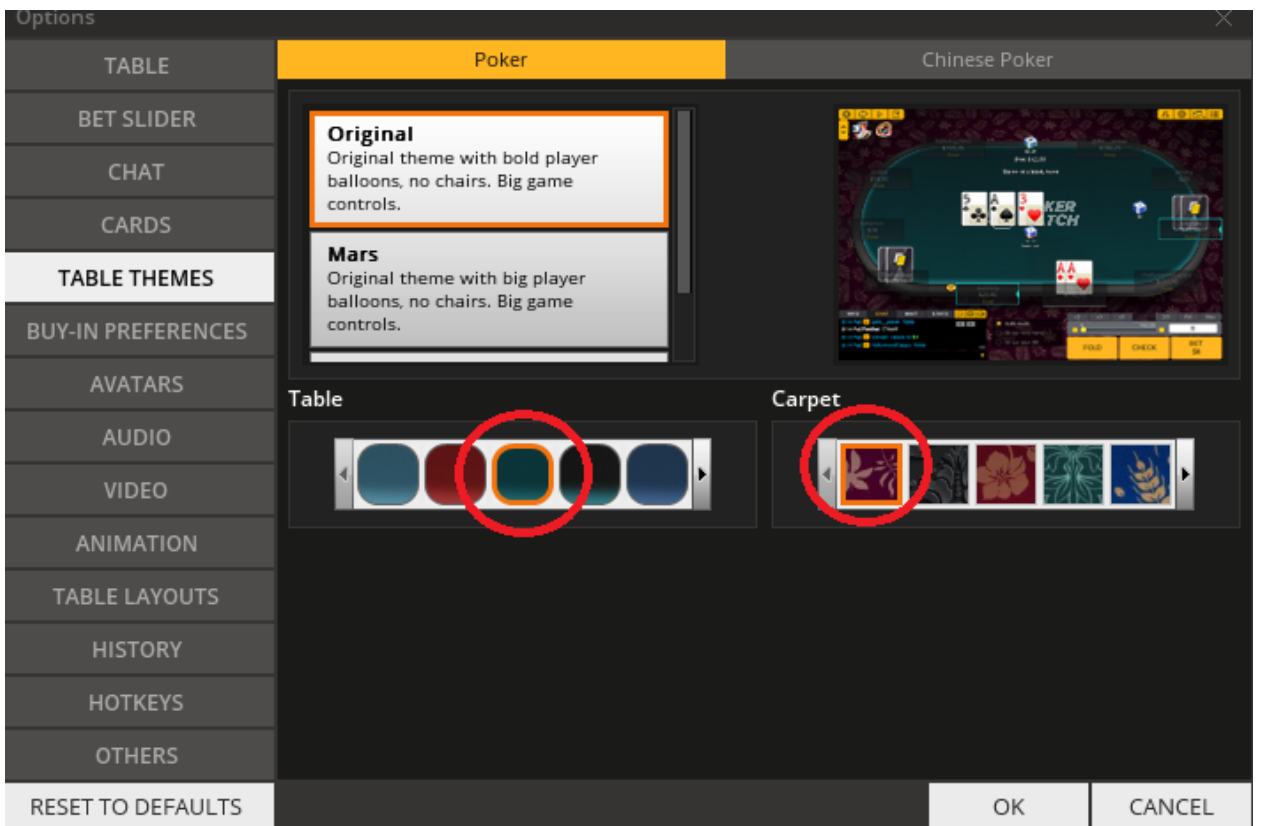

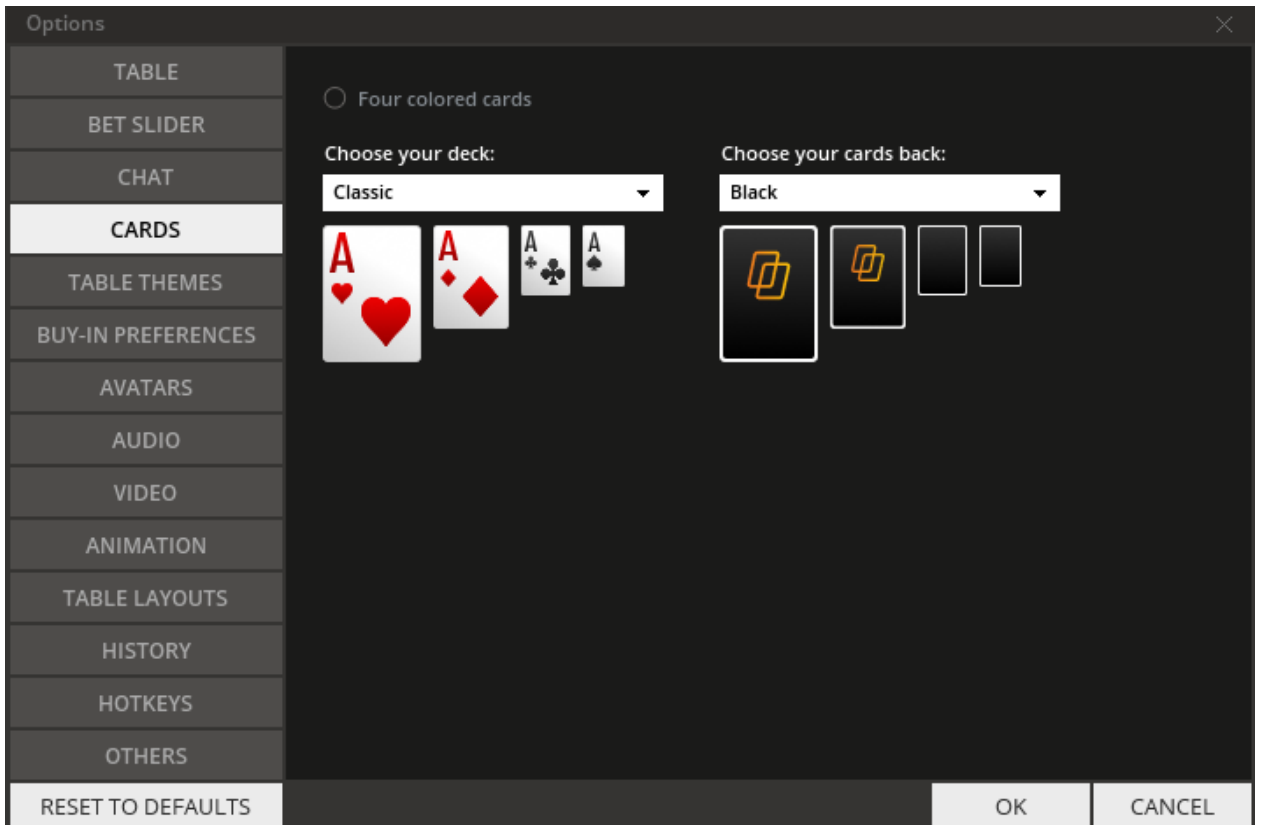

Language – **English!** Table size – 100% (default)

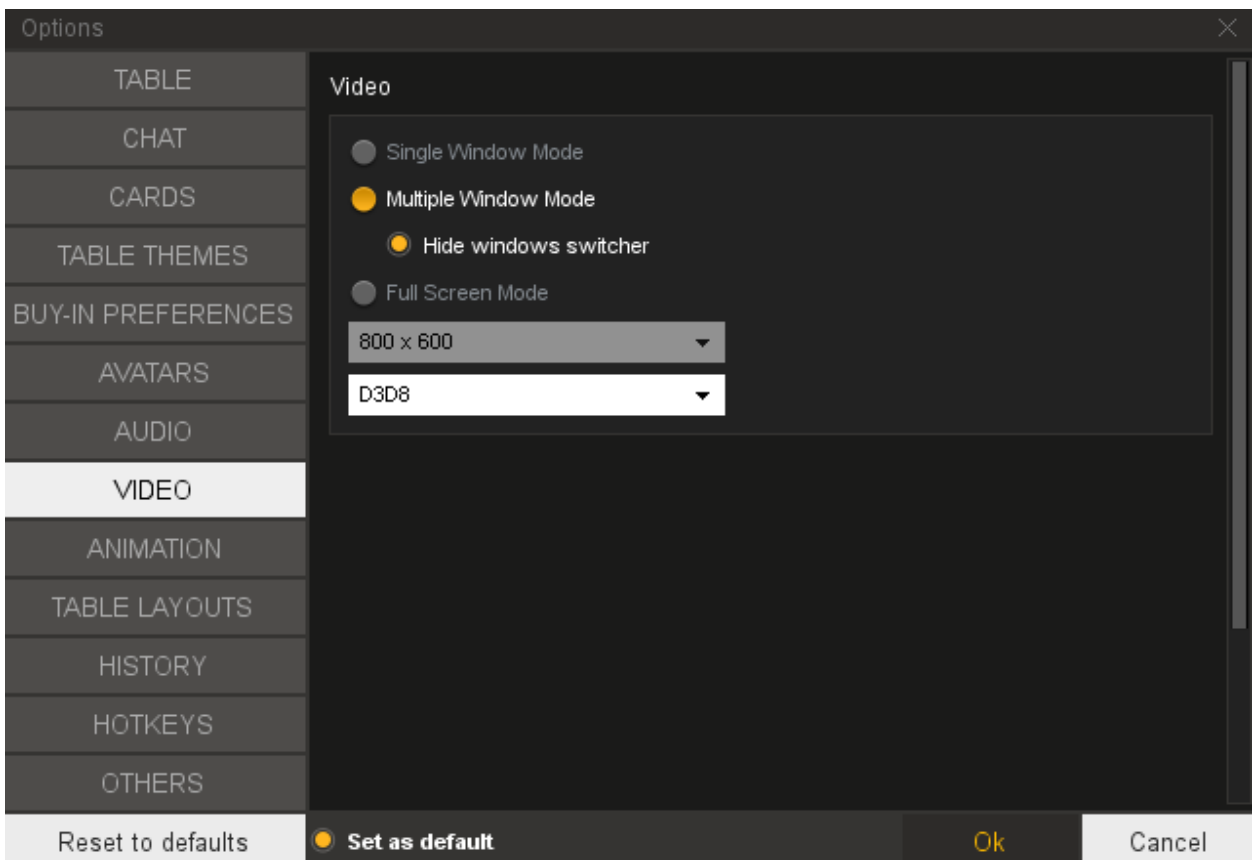

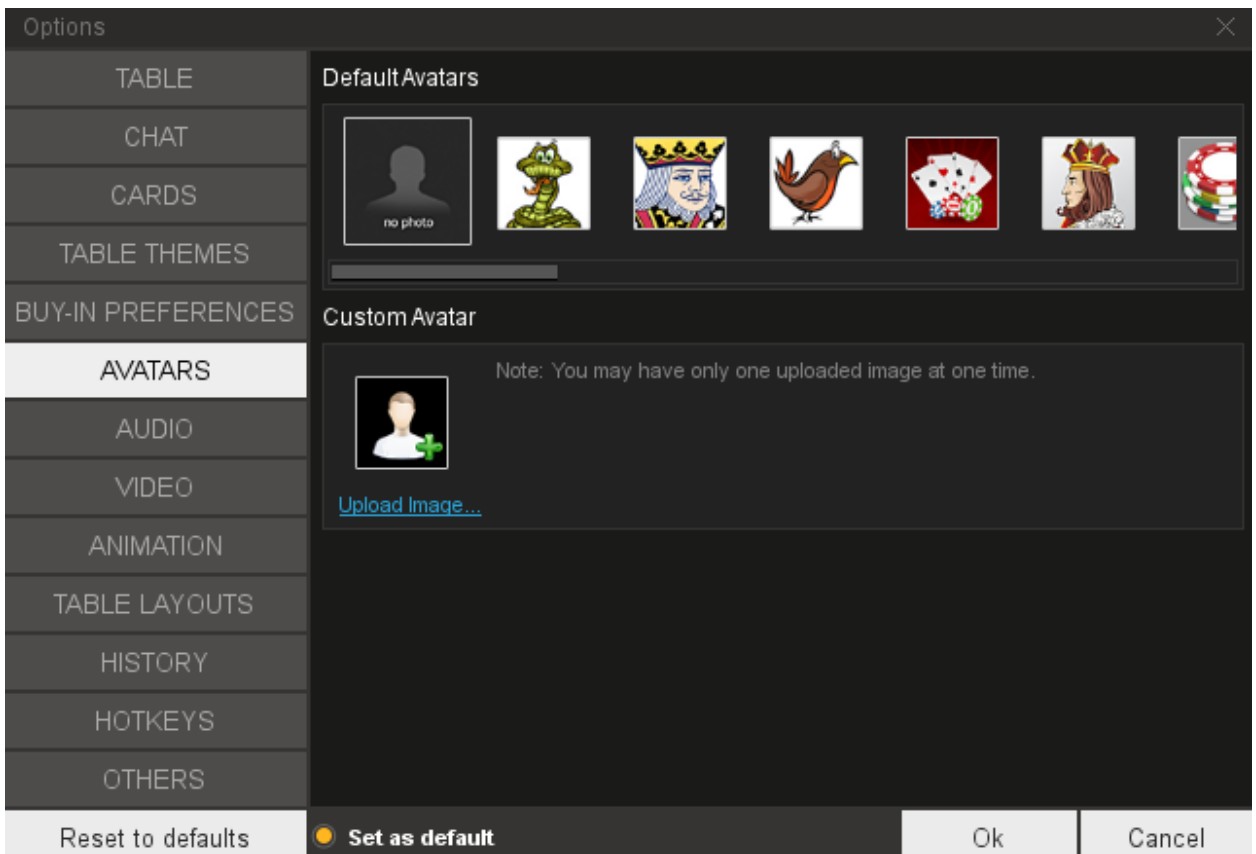

The image shows a screenshot of the 'Options' dialog box in the PokerMatch application. The dialog has a dark theme and a sidebar on the left with various settings categories. The 'TABLE' category is selected and highlighted. The main area of the dialog is divided into several sections, each with a title and a list of options:

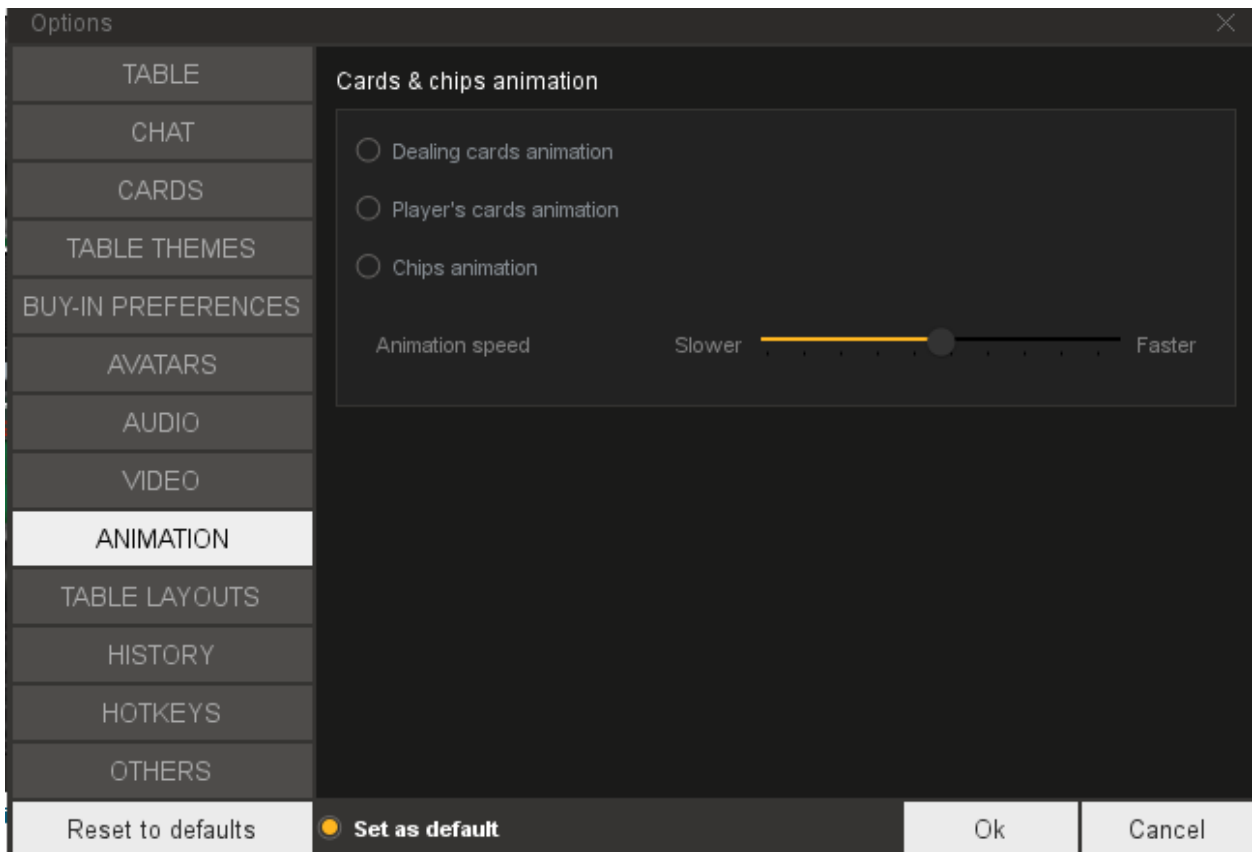

- UI Options:**
 - Activate Window On My Turn
 - Open Tournament Lobby On Tournament Start
 - Hide Pocket Cards
- Gameplay Options:**
 - Auto Muck Cards
 - Wait For Big/Over Blind
- Bet Slider Options:**
 - Use "Raise to" Instead of "Raise"
 - Adjust Bet Slider Within SB Instead Of BB
- Display Options:**
 - Show Hand Strength
 - Show Folded Cards

At the bottom of the dialog, there are four buttons: 'Reset to defaults', 'Set as default' (which is selected with a radio button), 'Ok', and 'Cancel'.

If bot does not connect to the table – try to unzip “PokerMatch_alt.zip” file into Warbot/scraper folder, and replace files.
